

The Profit center punch tool is a level and square combination tool that improves precision in all circumstances. It's lightweight sleek design makes it easy to handle/carry and provides more functionality. Ultra-strong replaceable rare earth magnets provide a firm grip on pipes up to 10" in diameter.

#### **Applications**

The Profit center punch tool is highly accurate tool used for defining the center position for the drill / hole saw. It is used while installing mechanical tees or sprinkler tees (both for indoor and outdoor work).

#### **Technical data**

- Body dimensions: 150 x 90 x 15 mm
- Punch construction: hardened steel (S7)
- Two replacable rare-earth magnets included
- Punch tool-dimensions: 9,5 mm
- Overall weight: 225 g
- Suitable for pipes size: 1" up to 10"

#### **Advantages**

- Lifelong durability
- Pocket size
- Lightweight construction aluminum grade 6061
- Smoothly machined all-round
- With handle
- Easy to use
- Magnetic positioning
- Accurate centering pin (impact resistant)
- Both vertical and horizontal leveling feature with clear sight glasses
- Fast delivery guaranteed

### GENERAL INFO

- Installers should be trained or experienced to install and understand the product.
- Read and understand all technical datasheets and installation instructions before attempting to install, remove or adjust any Profit piping products.
- Depressurise and drain the sprinkler installation system before attempting to install, remove or adjust any Profit piping products.
- Never work on piping-systems that are pressurised and / or filled with water.
- Profit reserves the right to change specifications, designs and/or standard equipment without notice and without incurring in any obligations.
- Use the necessary Personal Protection Equipment (PPE) to avoid personal injury (helmet, safety shoes and goggles, Profit gloves).

**Failure to follow these instructions could result in death or serious injury and property damage.**

**We advise to always store our products in closed and dry environments, the products do not need any specific maintenance once installed on an aboveground sprinkler installation.**
